

# COMMON CORE MATH SUPPORT FOR PARENTS

## We Are Here to Help

The adoption of the PA Core Standards by the Pennsylvania Department of Education has brought many changes to math curriculum across the state. Changes of any kind are often difficult, but by working together we can best help our students' learning. Uniontown Area School District wants to support our parents in understanding the changes in math by providing individual sessions as needed. No problem or question is too small! We are here to help in anyway we can.

## How to Schedule an Appointment

Uniontown Area School District's Math Coach, Mindy Harris, can be directly contacted at:

mindy.harris@uasdraiders.org or 724.438.4501 X 1653.

## Additional Available Resources

Below are online resources that provide additional support:

- ◆ [www.corestandards.org](http://www.corestandards.org)
- ◆ [www-k6.thinkcentral.com](http://www-k6.thinkcentral.com) (Think Central is for students in grades K-6. Each student has an individual login. See district website for more information.)

---

*"I can honestly say that my number sense has greatly improved since your help in understanding the changes....I love our math talks."*
